Customer Reviews

Discussed events, culture, politics, religion and women of both classical and medieval periods in a simple but interesting way

Renting this book for school. Very interesting to read. I am really liking it so far. I am only a couple of chapters in but it is fun to learn how things were back then.

I do not like this textbook. It is far too concise and doesn't really circle around any main ideas, jumping and skipping really important themes and topics. Comparing it to my other western civilization textbook, this book is, if anything, sub par. I hated it the whole time I had to use it, supplementing its lack of quality with even Wikipedia and other online sources.

Didnt even get the right book to me

Worst book ever

Good Condition!
