This a great book. Why? Because it REALLY makes you think. Hawking leads you smoothly from the beginning to the end of the universe. He shows the different ways things could be, why things weren't that way, why things are the way they are now. Sometimes is a little heavy, but if you read it slowly, it will all come to you. If I tell you more, I will spoil one of the greatest books I've ever read. Enjoy it, spent some time in it, you won't regret it. As a matter of fact, once you started it, you will carry it with you everywhere.

I would like to change this book because is folded in the right side I gonna send picture. Also the price it's very expensive small book(\$29.98). Compare with the other book El gran diseno cheaper and nice(19.60). Please send me answer about my request. Thank you so much.

How fabulous to find that Stephen Hawking's famous book has been translated into Spanish! I bought a copy for a friend and he loved it.
