DARREN BUSH

Synopsis

This classic casebook provides students and novice antitrust teachers the tools to deal with modern antitrust law and policy, including basic economic terms and concepts. For the advanced scholar, the casebook draws upon a rich set of cases, guidelines, scholarly commentary, briefs, and newspaper articles to motivate discussion of how policy goals are implemented by judges, practicing lawyers, and government policy makers. The book commences with foundational material spanning across antitrust claims, then proceeds to detail modern and classic approaches primarily to Sections 1 and 2 of the Sherman Act and Section 7 of the Clayton Act. The casebook concludes with important immunities and defenses. The update streamlines much of the case discussion to focus more on modern approaches, and eliminates chapters that are typically only taught in an advanced antitrust course.

Book Information

Series: University Casebook Series

Hardcover: 1005 pages

Publisher: Foundation Press; 7 edition (June 27, 2014)

Language: English

ISBN-10: 1587785722

ISBN-13: 978-1587785726

Product Dimensions: 1.8 x 7.5 x 10 inches

Shipping Weight: 4 pounds (View shipping rates and policies)

Customer Reviews

Professor Flynn was an eminent scholar of antitrust law. This book captures the very latest in thought on this ever-changing subject in a very readable fashion. I didn't understand a lot of it in law school, mostly because it was so poorly written. I only wish I had read this book while he was alive and available to chat.
