Children's Testimony: A Handbook Of Psychological Research And Forensic Practice (Wiley Series In Psychology Of Crime, Policing And Law)

Synopsis

The second edition of *Children's Testimony* is a fully up-to-date resource for practitioners and researchers working in forensic contexts and concerned with children's ability to provide reliable testimony about abuse. Written for both practitioners and researchers working in forensic contexts, including investigative interviewers, police officers, lawyers, judges, expert witnesses, and social workers. Explores a range of issues involved with children's testimony and their ability to provide reliable testimony about experienced or witnessed events, including abuse. Avoids jargon and highly technical language. Includes a comprehensive range of contributions from an international group of practitioners and researchers to ensure topicality and relevance.

Customer Reviews

The authors have done a nice job a condensing a very large and confusing mass of literature. A critical book for clinicians working with children and adolescents; you may not think you need it - but you do.
