Customer Reviews

I bought this book hoping that it was about Azulejo ceramics, a form of tin-based ceramics found in western Spain and Portugal. Instead, the book is a do-it-yourself guide to laying tiles, presumably Azulejo, in bathrooms, kitchens, etc. Unfortunately, there was no description of the book in the listing so it was a guess on my part about what it was about. I guessed wrong. If you want to know how to lay tiles, then this book is for you. But, if you want to know about Azulejo ceramics, this is not the book you want.
