# Transnational Legal Orders (Cambridge Studies In Law And Society)

## Synopsis

This book offers a path-breaking, empirically grounded theory that reframes the study of law and society. It shifts research from a predominantly national context to one that places transnational, national, and local lawmaking and practice within a single, coherent, analytic frame. By presenting and elaborating a new concept, transnational legal orders, Halliday and Shaffer present an original approach to legal orders that affect fundamental economic and social behaviors. The contributors generate arrays of hypotheses about how transnational legal orders rise and fall, where they compete and cooperate, and how they settle and unsettle. This original theory is applied and developed by distinguished scholars from North America, Europe, and Asia in business law (taxation, corporate bankruptcy, secured transactions, transport of goods by sea), regulatory law (monetary and trade, finance, food safety, climate change), and human rights law (civil and political rights, rule of law, right to health/access to medicines, human trafficking, criminal accountability of political leaders).

## Book Information

Series: Cambridge Studies in Law and Society

Paperback: 560 pages

Publisher: Cambridge University Press (March 4, 2016)

Language: English

ISBN-10: 1107641136
